1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Italy on October 16, 2002. It is noted, however, that applicant has not filed a certified copy of the Italy application as required by 35 U.S.C. 119(b).
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the Abstract, line 1, the word "ELLS" has been changed to --CELLS--.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art to the present invention is Nachumovsky (U.S. Patent No. 6,157,570). Nachumovsky disclosed a memory device having a comparator for comparing the buffered data signal and the external data signal, and a method of programming without erasing every cell at the write address. Nachumovsky failed to show or suggest a memory device having a combination of a controller, a program load bank and a control logic. Nachumovsky also did not show or suggest the step of storing a current value in a block of memory cell and enabling an erasing the block of memory cells simultaneously and enabling a programming of the memory cells individually according to the comparison between a new value and a current value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
